**Subject:** HPNS Building Remediation Goals | Share response letter with congressional offices  
**Attachments:** 2020-12-22\_EPASResponseToNavyBuildingRGLetter\_Signed.pdf

Sonam,

Our signed letter (attached) was archived on 12/23 to be placed on our HPNS website. On Monday, please share the email below and attached letter with appropriate congressional offices. I am out of the office Monday and Tuesday (feel free to call my work cell if you need something).

Thank you,

Yolanda Sanchez

**Subject:** U.S. EPA – Hunters Point Naval Shipyard – Updates on the radiological retesting of onsite buildings

Office of Congresswoman Nancy Pelosi  
Office of Senator Dianne Feinstein  
Office of Senator Kamala Harris

Dear Colleagues:

We have committed to keep you updated on EPA's oversight of the Navy's radiological retesting at the Hunters Point Naval Shipyard site. This email is an update from our August 21, 2020 email (below).

Attached is a letter to the Navy from the Superfund and Emergency Management Director about the Navy's evaluation of the radiological remediation goals (or cleanup levels) for current, onsite buildings. EPA is dedicated to move this conversation forward, working with the Navy to resolve the concerns we identified in our August 20, 2020 letter.

Regards,

{Please add on top of EPA's August 21, 2020 email}
